RDdigital App for eMagazines, eAudiobooks & eBooks

Richmond Public Library's RBdigital Magazine Collection (formerly *Zinio*), available for Richmond residents, has over 200 subscriptions, including many of today's popular titles. Titles look exactly like a print magazine! You can stream them on your computer*, or download to the App!

This guide shows you how to read downloaded eMagazines on the **RBdigital App**, available from the Apple App Store and the Android Google Play store.

Even better, you can use the same app to enjoy RBdigital's downloadable **eAudiobooks & eBooks** (formerly *OneClick*).

> NEW!!!! You can now use the same app to enjoy RBdigital's downloadable **Audiobooks & eBooks** (formerly *OneClick*).

1. Set Up an Account on a Browser

First-time users need to set up accounts on a browser (best on a computer), *before* accessing the app. *(Use the same email & password if setting up both.)*

For **Magazines:** Visit www.yourlibrary.ca/zinio, then click "Get eMagazines". Click on **Create New Account** in the top right corner, then add your library card number and other details.

For **Audiobooks & eBooks**: Visit rpl.yourlibrary.ca/rbdigital, then click "Listen Now". Click **REGISTER**, then enter your card number and details.

*Guides to streaming RBdigital eMagazines and eAudiobooks on your computer, or transferring eAudiobooks to an MP3 device, may also be found on the above websites.
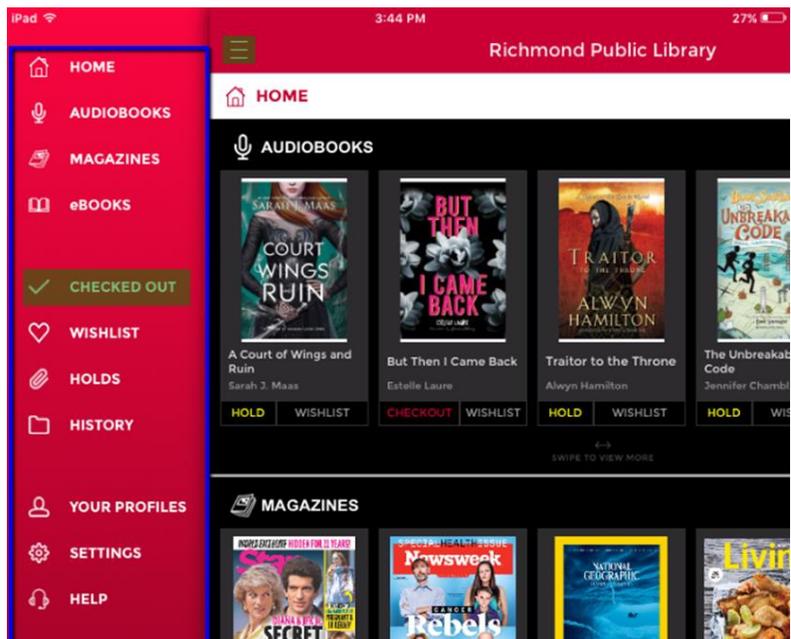

2. Setting up Your Mobile Device

After the account(s) set-up, search for the free **RBdigital App** in your mobile device's app store to download directly to an Apple or Android tablet or smartphone.
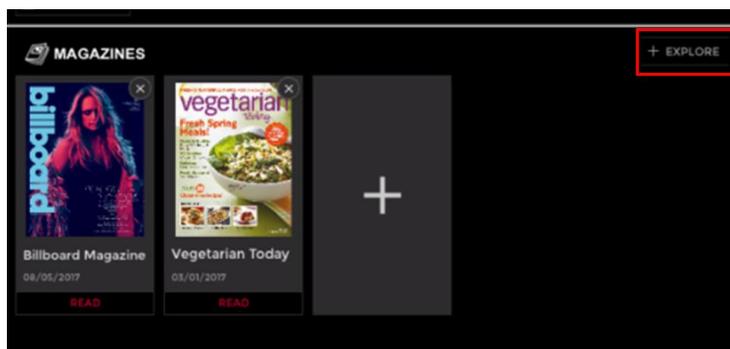

Log in to your app with the username/email and password used to create your RBdigital account(s). The first time you log in, select your country, province, and library name.

Navigate the app using the **Main Menu,** on the left-hand side of the screen, and the "Hamburger" menu (three horizontal lines).

If you've already borrowed titles, click on **CHECKED OUT**…

…to display your **Dashboard**. It shows the Magazines in your Collection, as well as currently borrowed eBooks or Audiobooks.

3. Magazines: Checking Out and Reading with Mobile Apps

To find and check out new Magazines, select **MAGAZINES** from the **Main Menu,** then:

- Click "View All"
- Click "Filter" (or the magnifying glass icon) to search by title, language or "genre" (subject).
- Titles may also be searched by clicking **CHECKED OUT** (on the **Main Menu**) to display your **Dashboard**. From there, select **EXPLORE** (see above image, top-right corner).

After checking out your Magazine, return to the Main Menu by tapping:
- The hamburger menu (three horizontal lines), or
- **"Return to Libraries"** (on some iOS devices), or
- The **Return** arrow, or **Back** button (on some Android or Kindle devices).

There are no limits on the number of magazines you can borrow, and you don't have to return them – they never expire! There is also an option, at checkout, to be emailed when the next issue becomes available.
