

EXPLORING ECOLOGY THROUGH PLACE

PRINTING WITH OCEAN LIFE

ALL AGES

MAY 29 & JUNE 12

Explore your surroundings, discover local ecology and learn to create using materials you find in nature. Participants will learn to make images in the style of Gytaku printmaking with stones, leaves and flowers!

CYANOTYPE PRINTING ALL AGES

JUNE 19 & JULY 3

Did you know you can take photos using the sun? You don't need a camera: just the outdoors. Cyanotype is a printing process that creates an imprint on a blue background. Together we will collect local plants and use them to create art.

FIELD BOOK CREATION FOR CHILDREN

JULY 17

You've probably read all about plants in books, but did you know you could create a similar book of your own? Join Rachel to learn how to collect plant specimens that you can then press and keep in your very own field book.

FIELD BOOK CREATION FOR SENIORS

JULY 21

This workshop will teach you how to collect and press plant specimens and suggest ways for you to record your own explorations of the landscape surrounding you.

STORYWALK® WITH RACHEL & RPL FOR FAMILIES

SEPTEMBER 25 & OCTOBER 2

A StoryWalk® is a fun, educational activity that promotes literacy, learning and outdoor play. Join us as we take to the forest for a surprising journey from beginning to end. Event takes place at the Minoru Park Playground near the Brighthouse Library.
